New York Stock Market

brief period of strength and activity in the early part of the day, the market fell into a state of duflness which restricted price movements during most of the session to narrow limits Prices advanced readily in the first hour under the stimulus of a resumption of last Saturday's buying and the anxious effects of the short interests to cover. With the execution of the buying orders, which had accumulated Over the week-end, demana fell off appreciably. Traders who had been persistently attempting to force a reaction stired the opportunity to sell the market which eased off, but not to an extent sufficient to lend much encouragement to bear operators. During the remainder of the day prices held fairly steady at a point somewhat below the best, but in the final hour most of the gains were wiped out. New York Cantral and United States Steel were especially weak at the close. Some elected issues held their strength well through the day. Reading reached 161½ but declined at the close. Sharrs of the Southern Railway, Louisville and Nashville Atlantic Coast Line and Chesapeake and Ohio moved up briskly on reports of increased cotton shipatort, coupled with the prophecy that the cotton crop would be shown to nave been larger than was estimated. Reports of hetter conditions in the steel trade had a favorable effect on brices of a number of equipment companies, including American Locomotive. Pressed Steel Car and American Car and Foundry.

Missouri Pecific touched its highest point of the year when the report became current that an experienced Western railroad man had been selected as its executive head. Shares of the Texts Company declined abruptly at the news of a proposed bond issue of \$12,000,000, but later recovered most of the loss. price period of strength and activity the early part of the day, the marat the news of a proposed bond issue \$12,000,000, but later recovered most

Announcement that several thousand Am employes of the Gary mills would resume work within the next few weeks, and the December statements of the Att Chicago and Northwestern and the St. Att Louis and San Francisco Railroads, Brohelped to give a favorable tenor to the diav's developments. The Northwest Chicago and San Francisco for all lines a net garnings of \$667,000, and the St. Louis and San Francisco for all lines a net sain of \$200,000.
